

Portal for ArcGIS Log4j

Summary

This security patch addresses multiple vulnerabilities found in log4j distributed with Portal for ArcGIS. Esri recommends that all customers using Portal for ArcGIS 10.9.1 apply this patch.

Description

Esri® announces the Portal for ArcGIS Log4j Patch. Esri recommends that all customers using Portal for ArcGIS 10.9.1 apply this patch. This patch deals specifically with the issue listed below under [Issues Addressed with this patch](#).

Issues Addressed with this patch

- [BUG-000145347](#) - Update log4j to address security vulnerabilities.

Please see [ArcGIS Enterprise Log4j Security Patches Available](#) for further details.

Installing this patch on Windows

Installation Steps:

This patch should be installed on all Portal for ArcGIS installations related to the Portal for ArcGIS site.

The ArcGIS product listed in the table must be installed on your system before you can install a patch. Each patch setup is specific to the ArcGIS product in the list. To determine which products are installed on your system, please see the [How to identify which ArcGIS products are installed](#) section. Esri recommends that you install the patch for each product that is on your system.

1. Download the appropriate file to a location other than your ArcGIS installation location.

ArcGIS Enterprise 10.9.1	
Portal for ArcGIS	ArcGIS-1091-PFA-Log4j-Patch.msp
Checksum (SHA256)	<code>AC1FBAE07CBD1C115F3C9CED4B53434E07F03F4B9F3EDC19BBD46856715D1F71</code>

2. Make sure you have write access to your ArcGIS installation location.

3. Double-click ArcGIS-1091-PFA-Log4j-Patch.msp to start the setup process.

NOTE: If double clicking on the MSP file does not start the setup installation, you can start the setup installation manually by using the following command:

```
msiexec.exe /p [location of Patch]\ArcGIS-1091-PFA-Log4j-Patch.msp
```

Installing this patch on Linux

Installation Steps:

Complete the following install steps as the ArcGIS Install owner. The Install owner is the owner of the arcgis folder.

The ArcGIS product listed in the table must be installed on your system before you can install a patch. Each patch setup is specific to the ArcGIS product in the list. To determine which products are installed on your system, please see the [How to identify which ArcGIS products are installed](#) section. Esri recommends that you install the patch for each product that is on your system.

1. Download the appropriate file to a location other than your ArcGIS installation location.

ArcGIS Enterprise 10.9.1	
Portal for ArcGIS	ArcGIS-1091-PFA-Log4j-Patch-linux.tar
Checksum (SHA256)	7FBEA3EE23B586D007A7E3291614C0856DB136DCB92C7B25F3AFCCF623D5E7E7

2. Make sure you have write access to your ArcGIS installation location, and that no one is using ArcGIS.

3. Extract the specified tar file by typing:

```
% tar -xvf ArcGIS-1091-PFA-Log4j-Patch-linux.tar
```

4. Start the installation by typing:

```
% ./applypatch
```

This will start the dialog for the menu-driven installation procedure. Default selections are noted in parentheses (). To quit the installation procedure, type 'q' at any time.

Uninstalling this patch on Windows

To uninstall this patch on Windows, open the Windows Control Panel and navigate to installed programs. Make sure that "View installed updates" (upper left side of the Programs and Features dialog) is active. Select the patch name from the programs list and click Uninstall to remove the patch.

Uninstalling this patch on Linux

To remove this patch on versions 10.7 and higher, navigate to the <Product Installation Directory>/.Setup/qfe directory and run the following script as the ArcGIS Install owner:

```
./removepatch.sh
```

The removepatch.sh script allows you to uninstall previously installed patches or hot fixes. Use the -s status flag to get the list of installed patches or hot fixes ordered by date. Use the -q flag to remove patches or hot fixes in reverse chronological order by date they were installed. Type removepatch -h for usage help.

Restart your ArcGIS services

Patch Updates

Check the [Esri Support Downloads](#) page periodically for the availability of additional patches. New information about this patch will be posted here.

How to identify which ArcGIS products are installed

To determine which ArcGIS products are installed, choose the appropriate version of the PatchFinder utility for your environment and run it from your local machine. PatchFinder will list all products, hot fixes, and patches installed on your local machine.
